

Buderus G115 and G215 with Carlin burners

Now Come Standard with Custom Burner Covers!

- Matches Boiler
- Quieter Operation
- Single Screw Burner Access

EZ Series Advanced Oil Burners

Quiet Operation

- Unique blower design nearly eliminates fan noise
- Combustion and ignition noise minimized by proprietary nose cone design

Unmatched Performance

- OEM Specified – Manufactured to Buderus specifications to optimize performance on G115 and G215 boilers
- Engineered to yield exceptional fuel/air mixing for smooth combustion
- End cone crafted from high temperature 18SR stainless steel
- Oil pump with secondary internal cone valve provides added shutoff protection

Be sure to specify Carlin burners on your G115 and G215 when ordering.
