

Why Choose Carlin?

Get smooth combustion and quieter operation with Carlin Oil Burners on Burnham® Boilers.

Burnham® Boilers now with covered EZ Series Oil Burners

EZ Series Oil Burner Features

- OEM Specified – Manufactured to Burnham residential boiler specifications for exceptional performance.
- Engineered to yield optimal fuel/air mixing for smooth combustion and quiet operation.
- High grade retention head, crafted from 18SR stainless steel, provides maximum protection from temperature degradation.
- Oil pump with secondary internal cone valve provides added shutoff protection. Designed for simple set-up and even simpler servicing.
- Combustion and ignition noise minimized by sound dampening cover with single screw burner access.
- Smart oil primary control with LCD screen, easy setup and advanced diagnostic information.
